

MyNSPkit Helpful Hints

- To register as an instructor please visit www.mynspkit.com and select register as an **Instructor** under the First-time users section. You must set up an account to use the kit.
- When asked to enter an access code please enter the code sent to you by your ROA or IT. Additional note: You will only use this special access code once. Once you have set up your personal Instructor's account, you will use that to access the MyNSPkit.
- Attend a Brady on line Webinar. If there are none available, you may contact your ROA. They can contact their respective Brady rep and try to get more webinars scheduled.
- There is a virtual tour of registration which is very helpful. It goes step by step.
- Make sure you register as an instructor. Students will register with the code on the inside of the front cover of their 5th edition.
- During the registration process you will be asked for a school. Select "other" and enter your Ski Area. This application is used for education centers. None of our ski areas will be in the drop down list.
- If you are an Instructor and want to use the My Test function you will need to contact your ROA, Kathy Glynn or Karen Hadden so we can let our Brady representatives know you would like access.
- Enjoy this powerful tool
- Please direct questions to your ROA, Kathy Glynn or Karen Hadden. Please do not call Brady or Pearson. Thanks so much.
